Bibliography

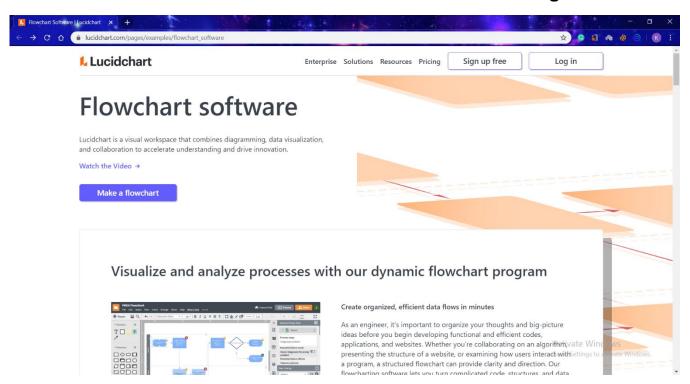

1. Visual Paradigm Free Trial

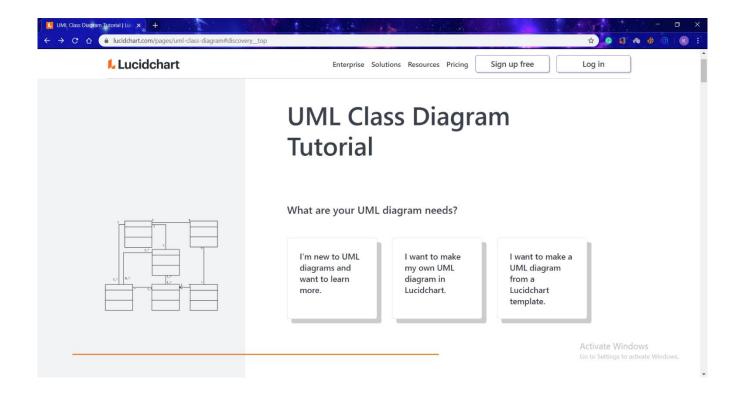

o To design the Data Flow Diagram (DFD)

2. Lucid Charts

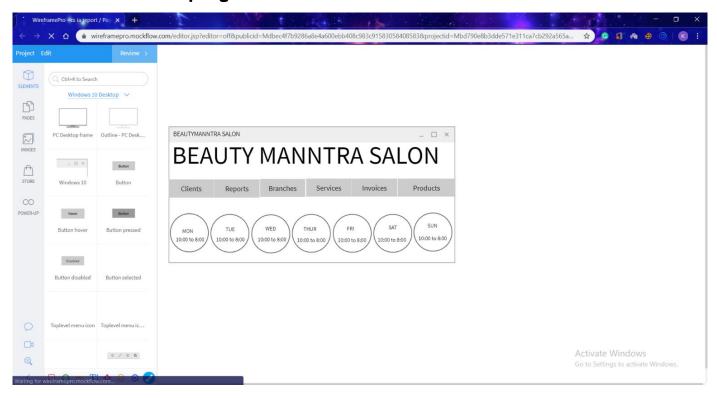

o To make the Flowchart and the UML Class Diagram

3. MockFlow Wireframe Pro

 To design the Graphical User Interface(GUI) aspect of the program

4. Eclipse IDE

To develop the product

☐ Design

CSIA
```

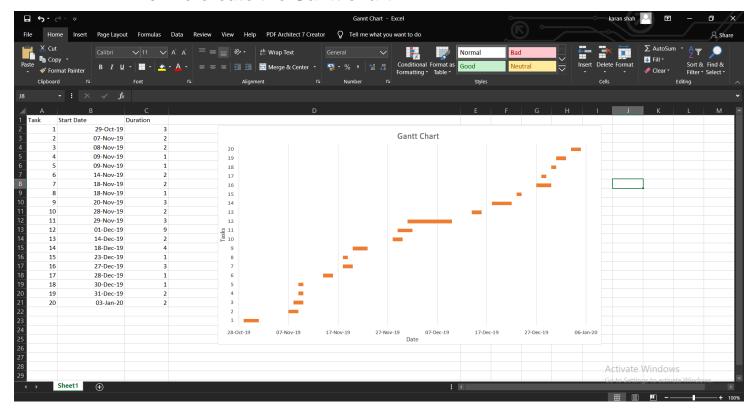

5. Window Builder in Eclipse

For easier development of the GUI of the product

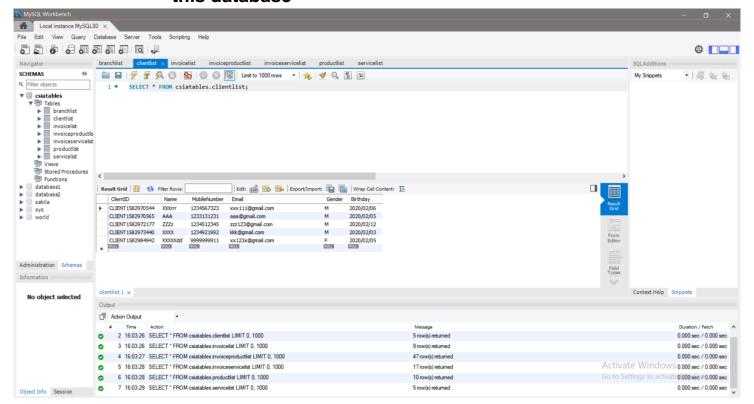

6. MS Excel

To create the Gantt chart

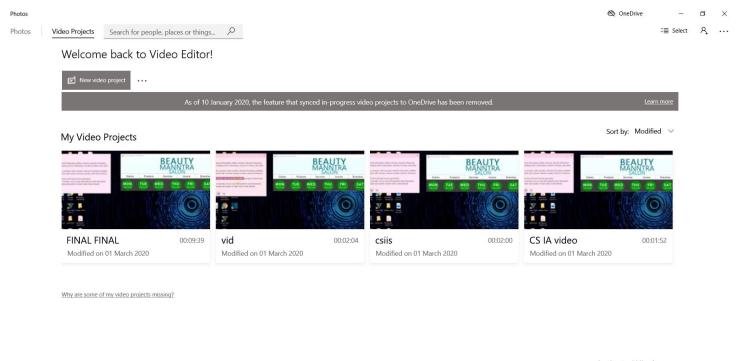

7. MySQL database

 Database connected to the product; all data stored in this database

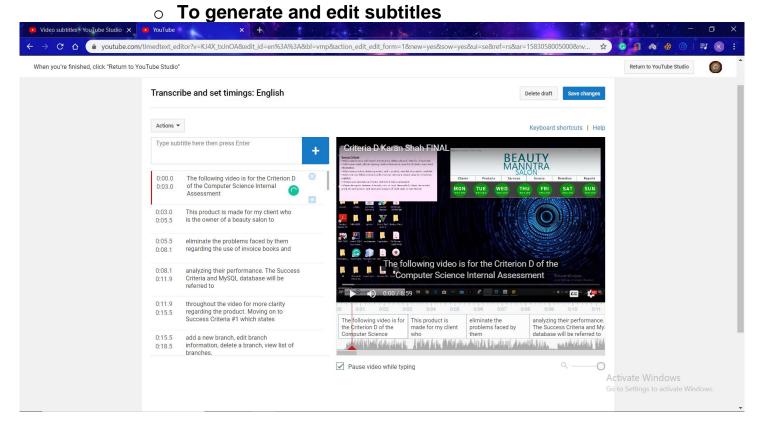

8. Windows Video Editor

To edit videos and add custom audios.

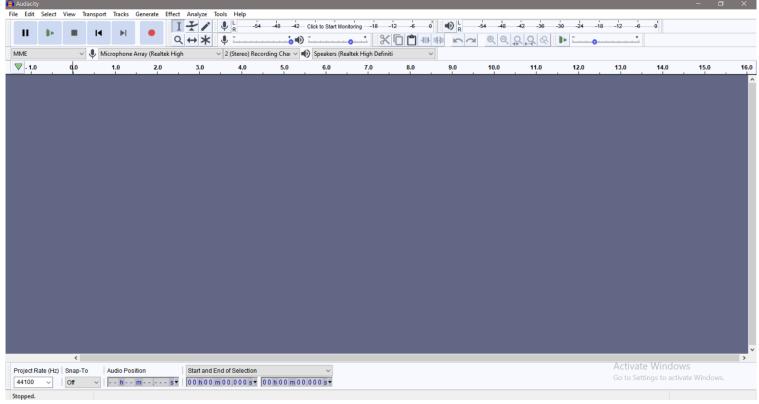

Activate Windows

9. YouTube Classic Studio

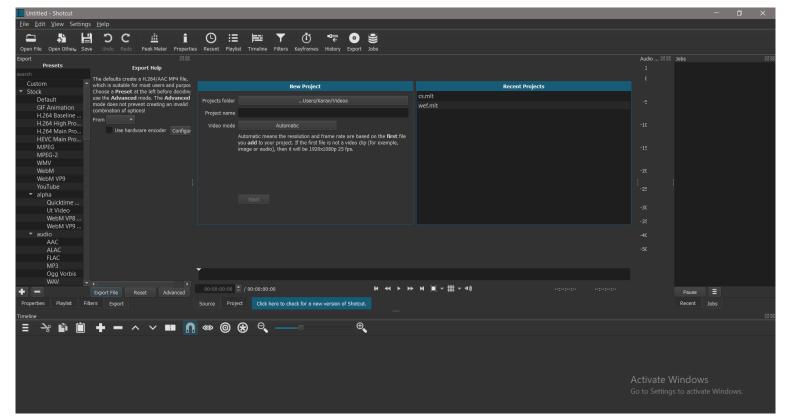

10. Audacity

o To prevent a high-pitched voice in the sped up video

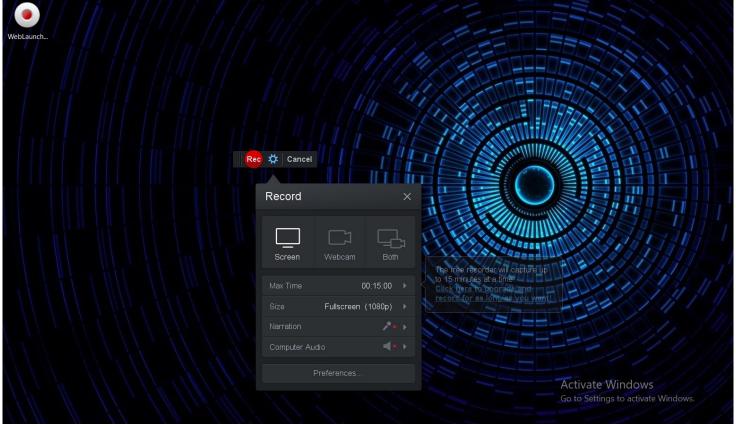

11. Shotcut

 To detach the audio from the video, and then edit that audio in Audacity

12. Screen cast

 To record the final video to show the functions of the product

13. StackOverFlow

 To solve several different errors related to Java and MySQL
